**Subject:** **springfield township, montco meeting request**

Hi Sasha – I'm reaching out on behalf of Congressman Meehan's constituents in Springfield Township, Montgomery County – and specifically the former Tank Car Corporation of America Site in the township.

We would love to help facilitate and set up a meeting with the township, the EPA Region III office and representatives from Congressman Meehan's office. We are hopeful that we would be able to discuss prospective liability relief for the Township, so that it can acquire the property with the confidence that the EPA will later pursue it to recover environmental cleanup costs. Specifically, it is my understanding that the township would like to enter into an agreement with the EPA that provides prospective liability relief in exchange for a commitment to assume long-term operation and maintenance responsibilities at the site. Such an agreement would include details about how to remove any existing liens on the property. It is also my understanding that the Township is interested in securing any available federal funding to address the remaining contamination at the site through PA's Act 2 program.

Would your office be open to such a meeting? If you have any questions please do not hesitate to reach out to me at (202) 225-2011. Thank you kindly.
